## YOUR DYNAMIC PROFILE

Biomarkers: 288

Range: 5.73

Biomarkers In Range: 137

Biomarkers Out of Range: 151

# BALANCER VIRTUAL ITEM RE-SCAN RESPONSES

This section of the report shows your top balancer Virtual Items and how many out-of-range biomarkers each balancer progressively brought into range. Each balancer adds to the cumulative amount of biomarkers brought into range.

## Baseline

Biomarkers Out of Range: 151

## YL - Sensation Massage Oil

Biomarkers Brought Into Range: 58

Category: All Young Living Products, Products (US)

## YL - Laurus Nobilis Essential Oil

Additional BioMarkers Brought Into Range: 32

Category: All Young Living Products, Products (US)

## YL - Joy Essential Oil

Additional BioMarkers Brought Into Range: 26

Category: All Young Living Products, Products (US)

### YL - Digest & Cleanse

Additional BioMarkers Brought Into Range: 12

Category: All Young Living Products, Products (US)

### YL - Life 9

Additional BioMarkers Brought Into Range: 6

Category: All Young Living Products, Products (US)

### YL - AlkaLime Stick Packs

Additional BioMarkers Brought Into Range: 5

Category: All Young Living Products, Products (US)

### YL - Essentialzymes-4

Additional BioMarkers Brought Into Range: 5

Category: All Young Living Products, Products (US)

## PRODUCT DESCRIPTIONS

Top balancer Virtual Items are listed in order below along with their respective dR values and detailed product descriptions.

### Top Products w/ Description

#### 27.92 YL - Sensation Massage Oil

Sensation™ Massage Oil 8 oz  
Item # 3036

Sensation™ Massage Oil inspires and encourages feelings of romance and youthfulness with the beautifully blended fragrances of Ylang Ylang, Jasmine, Geranium, and other essential oils. This special blend leaves the skin feeling smooth and soft.

#### How to Use

Massage liberally onto skin as desired. Shake well before using.

**WARNING:** Avoid contact with eyes. If contact occurs, flush area with vegetable oil and see a doctor immediately.

#### Ingredients

Fractionated Cocos Nucifera (Coconut) Oil, Vitis Vinifera (Grape) Seed Oil, Cananga Odorata† Ylang ylang flower oil, Coriandrum Sativum† Coriander Seed oil, Citrus Aurantium Bergamia† (Furanocoumarin-free Bergamot, Triticum Vulgare (Wheat) Germ Oil, Jasminum Officinale†‡ Jasmine Oil, Prunus Amygdalus Dulcis (Sweet Almond) Oil, Olea Europaea (Olive) Fruit Oil, Pelargonium Graveolens† Geranium Flower oil  
Young Living Therapeutic Grade™ essential oil

† Organically grown in accordance with the California Organic Foods Act of 1990.

†‡ 100% pure absolute

#### 24.20 YL - Laurus Nobilis Essential Oil

Laurus Nobilis Essential Oil (Singles) 5 ml  
Aromatic | Topical  
Item # 3574

Laurus Nobilis has a spicy scent that is uplifting. Ancient Greeks used leaves of the laurel tree to crown their victors and scholars.

EarthKosher Certified

#### How to Use

Directions: Topical: Dilute 1 drop with 1 drop of V-6™ or olive oil. Then apply to desired area as needed.

Aromatic: Diffuse up to 1 hour three times daily.

#### Use For:

Respiratory Support

Grounding

Calming

**Caution:** Keep out of reach of children. If you are pregnant, nursing, taking medication, or have a medical condition, consult a healthcare professional prior to use.

**Storage:** Store in a cool dry place.

#### Ingredients

Young Living Therapeutic Grade™ Laurus nobilis essential oil  
(Laurus nobilis)

### 21.05 YL - Joy Essential Oil

Joy™ is a luxuriously exotic blend with uplifting overtones that creates magnetic energy and brings joy to the heart. When worn as cologne or perfume, Joy exudes an alluring and irresistible fragrance that inspires romance and togetherness. When diffused, it can be refreshing and uplifting.

Possible skin sensitivity. If pregnant or under a doctor's care, consult your physician. Dilution not required; suitable for all but the most sensitive skin. Generally safe for children over 2 years of age. Avoid using on skin exposed to direct sunlight or UV rays.

Ingredients: Bergamot (Citrus bergamia), ylang ylang (Cananga odorata), geranium (Pelargonium graveolens), rosewood (Aniba rosaeodora), lemon (Citrus limon), mandarin (Citrus reticulata), jasmine (Jasminum officinale), Roman chamomile (Chamaemelum nobile), palmarosa (Cymbopogon martinii), and rose (Rosa damascena).

### 19.92 YL - Digest & Cleanse

Digest & Cleanse™

Digest & Cleanse™ soothes gastrointestinal upset and supports healthy digestion.\* Stress, overeating, and toxins can irritate the gastrointestinal system and cause cramps, gas, and nausea that interfere with the body's natural digestive and detox functions. Supplementing with Digest & Cleanse will soothe the bowel, prevent gas, and stimulate stomach secretions, thus aiding digestion.\* Digest & Cleanse is formulated with clinically proven and time-tested essential oils that work synergistically to help prevent occasional indigestion and abdominal pain.\* Precision Delivery softgels release in the intestines for optimal absorption and targeted relief and to help prevent aftertaste. This product can also be used in conjunction with any cleansing program, such as Young Living's 5-Day Nutritive Cleanse. Digest & Cleanse is part of the new Purely Oils line of premium essential oil supplements.

\* These statements have not been evaluated by the Food and Drug Administration. Young Living products are not intended to diagnose, treat, cure, or prevent any disease.

### 10.65 YL - Life 9

Life 9™

Item # 18299

Life 9 is a proprietary, high-potency probiotic that combines 17 billion live cultures from nine beneficial bacteria strains. It helps promote healthy digestion, supports gut health, and helps maintain normal intestinal function for the overall support of a healthy immune system.\*

Life 9 is designed with targeted-release capsules, a dual-sorbent desiccant, and a special bottle and cap to ensure that your Life 9 stays fresh and effective. Each bottle contains 30 capsules, making it convenient to take this powerful supplement every day.

#### FEATURES & BENEFITS

- Promotes healthy digestion\*
- Supports gut health\*
- Supports a healthy immune system\*
- Helps maintain normal intestinal function\*

\*These statements have not been evaluated by the Food and Drug Administration. Young Living products are not intended to diagnose, treat, cure, or prevent any disease.

### 9.55 YL - AlkaLime Stick Packs

AlkaLime™ Stick Packs 30 ct

Item # 3055

AlkaLime™ now comes in convenient single-serve stick packs, so you can enjoy this mild, alkalizing drink on the go. Keep a few in your purse, backpack, or at the office. The effervescent mix is formulated with Lemon and Lime essential oils, organic lemon powder, and biochemical mineral cell salts to create a crisp and soothing beverage that's gentle on stomachs. Simply

empty a packet into 4–6 ounces of cool, pure water, then stir and enjoy. Contains no artificial colors, flavors, or sweeteners.

Absorbed easily and quickly by the body

Effervescent formula starts working right away to soothe the occasional upset stomach

Gentle on the stomach

Helps maintain optimal pH in the stomach

Free of artificial colors, flavors, or sweeteners, and formulated with nine biochemical mineral cell salts, the refreshing taste of

Lemon and Lime essential oils, and organic lemon powder

Comes in convenient, single-serve stick packs

#### How to Use

Empty 1 stick pack into 4–6 ounces of distilled or purified water. Let sit for 20–25 seconds. Gently stir until mixed, then drink immediately. Take 1–3 times daily, 1 hour before meals or bedtime.

#### Cautions

Mix with water only.

Keep out of reach of children.

Not recommended for sodium-restricted diets.

If you are pregnant, nursing, taking medication, or have a medical condition, consult a health professional prior to use.

Store in a cool, dry place, away from excessive heat and direct sunlight.

### 7.11 YL - Essentialzymes-4

Essentialzymes-4 is a multi-spectrum enzyme complex specially formulated to aid the critically needed digestion of dietary fats, proteins, fiber, and carbohydrates commonly found in the modern processed diet. The dual time-release technology releases the animal- and plant-based enzymes at separate times within the digestive tract, allowing for optimal nutrient absorption.

## TOP GENERAL BALANCER VIRTUAL ITEMS

### Immunity Support

- 21.12 **Glutathione**
- 19.09 **Vitamin B9 (Folic Acid)**
- 16.74 **Green Tea**
- 14.97 **Pau d'Arco**
- 14.34 **Anise Seed**
- 14.11 **Licorice -hc**
- 12.30 **Ginseng**
- 9.82 **Vitamin C (Ascorbic Acid)**
- 8.56 **Turmeric**
- 8.12 **Maitake (Grifola frondosa)**

### Top Probiotic Strains

- 24.40 **Streptococcus Species**
- 16.74 **Bacillus Species**
- 15.98 **L. Salivarius**
- 14.28 **B. bifidum**
- 13.36 **Bacteroides Thetaiotamicron**

### Enzymes

- 12.53 **Glucoamylase**
- 10.28 **Peptidase**
- 9.72 **Chymotrypsin**

8.07 **Invertase**

7.53 **Pepsin**

# FOUNDATIONS FOR IMMUNE SYSTEM WELLNESS

Our immune system faces unique challenges in today's environment. This biosurvey addresses this key area of wellness by scanning 6 foundational immunity stressors:

- Gastrointestinal System
- Immune System
- Lymphatic System
- Mental/Emotional Stress
- Respiratory System
- Sleep

Optimizing these 6 areas of immune health can put the body in a stronger position to fend off illness and disease while enhancing overall health.

## VIRTUAL ITEM RESPONSES: TODAY'S IMMUNITY FOUNDATIONAL STRESSORS

# GASTROINTESTINAL SYSTEM

The saying "You are what you eat" can be said more accurately; "You are what you digest"! However, if digestive function is compromised, it's not just your body's nutrient status that suffers. The health of the gut greatly impacts brain function, hormone balance, immune regulation, and so much more...

The Gastrointestinal System, which handles your digestive function, also contains a vast mucosal barrier. Gut inflammation and a compromised mucosal barrier can be caused by bacterial and parasitic infections, food additives, environmental toxins, mental & emotional stress, and a host of other stressors. This can severely limit digestion, lead to inflammation in other areas of the body, and have a huge negative impact on the Immune System and Hormonal/Endocrine System.

In order for your body's cells, tissues, and organs to get both proper nutrition and eliminate toxins, your digestive organs need to be supported in a way that eliminates any stress that compromises this amazing system.

## Gastrointestinal System Stressors

# IMMUNE SYSTEM

The first line of defense against disease-causing microorganisms is the skin and mucosal barriers. Behind this is a complex defensive system. Collectively these parts are known as the immune system.

The immune system neutralizes or destroys microorganisms and the toxins created by them wherever they attack the body via the extensive lymphatic system (comprised of the spleen, thymus gland, tonsils, bone marrow, and other organs and tissues). The network of lymph vessels (capillaries and lymph nodes) drains the clear body fluid known as lymph from the tissues into the bloodstream. Special white blood cells that originate in bone marrow, known as lymphocytes, along with antibodies (proteins that neutralize foreign objects), are primarily responsible for carrying out the work of the immune system.

The first line of immune defense is called the mucosal barrier. Mucous membranes are an integral part of the immune system. They form a protective barrier between the interior of the body and the outside environment. The mucosal barrier is permeable and allows nutrients into the body while protecting it from infectious agents, allergens, and other harmful substances. If testing reveals that mucosal immunity is impaired, therapies should be initiated to rebuild it.

In addition to evaluating mucosal immunity, it is relevant to assess cell-mediated immunity and humoral immunity. Cell-mediated immunity works by the activation of specialized cells called macrophages and natural killer cells, which destroy intracellular pathogens (disease-causing microorganisms). Humoral immunity (occurring in body fluid) is the aspect of immunity that involves antibodies. Antibodies recognize and attach themselves to foreign substances, called antigens, to neutralize and carry them away. Supporting the immune system enhances overall wellness by improving one's ability to fight infectious agents, defend against toxic exposures such as chemicals and heavy metals, and kill aberrant cancer cells.

## Immune System Stressors

# LYMPHATIC SYSTEM

In addition to removing excess fluids and transporting fat to the circulatory system, the lymphatic system plays an integral role in the immune functions of the body. It is the first line of defense against disease. This network of vessels and nodes transports and filters lymph fluid containing antibodies and lymphocytes (good) and bacteria (bad). The body's first contact with these invaders signals the lymphatic system to orchestrate the infection-fighting process to neutralize, destroy, and remove the invading microorganisms. The spleen also helps the body fight infection and keep the blood healthy. The spleen contains lymphocytes which weaken and kill bacteria, viruses, and other unwanted organisms. The spleen also contains a type of white blood cell called a macrophage. Macrophages engulf and destroy bacteria, viruses, parasites, dead tissue, and foreign matter, and remove them from the blood. You might think of macrophages as your body's garbage collectors. (1)

## Lymphatic System Stressors

# RESPIRATORY SYSTEM

The first line of defense against disease-causing microorganisms is the skin and mucosal barriers. Behind this is a complex defensive system. Collectively these parts are known as the immune system.

The immune system neutralizes or destroys microorganisms and the toxins created by them wherever they attack the body via the extensive lymphatic system (comprised of the spleen, thymus gland, tonsils, bone marrow, and other organs and tissues). The network of lymph vessels (capillaries and lymph nodes) drains the clear body fluid known as lymph from the tissues into the bloodstream. Special white blood cells that originate in bone marrow, known as lymphocytes, along with antibodies (proteins that neutralize foreign objects), are primarily responsible for carrying out the work of the immune system.

The first line of immune defense is called the mucosal barrier. Mucous membranes are an integral part of the immune system. They form a protective barrier between the interior of the body and the outside environment. The mucosal barrier is permeable and allows nutrients into the body while protecting it from infectious agents, allergens, and other harmful substances. If testing reveals that mucosal immunity is impaired, therapies should be initiated to rebuild it.

In addition to evaluating mucosal immunity, it is relevant to assess cell-mediated immunity and humoral immunity. Cell-mediated immunity works by the activation of specialized cells called macrophages and natural killer cells, which destroy intracellular pathogens (disease-causing microorganisms). Humoral immunity (occurring in body fluid) is the aspect of immunity that involves antibodies. Antibodies recognize and attach themselves to foreign substances, called antigens, to neutralize and carry them away. Supporting the immune system enhances overall wellness by improving one's ability to fight infectious agents, defend against toxic exposures such as chemicals and heavy metals, and kill aberrant cancer cells. (2)

## Respiratory System Stressors

# MENTAL/EMOTIONAL STRESS

While you can't always control what happens to you, you can control how you react to it. Channeling your emotions in a consciously positive way helps you to dramatically decrease the negative impact of stressful events. Learning how to do this is part of personal growth—mental and emotional, as well as spiritual. Integrating relaxation exercises such as meditation and deep breathing into your daily routine can make a dramatic improvement in your entire life, giving you the resolve to positively channel your emotions.

Mental and emotional responses to stimuli are referred to as limbic responses. The limbic system of the brain, sometimes called the emotional nervous system, moderates your moods, maintains homeostasis, and helps form memories.

The hypothalamus is a principal limbic structure whose primary purpose is to maintain homeostasis in the body—meaning that it returns systems within your body to their “set points.” Specifically, the hypothalamus regulates hunger, thirst, levels of pain and pleasure, sexual satisfaction, and aggressive or defensive behavior.

The hypothalamus is known as the master switchboard because it's the part of the brain that controls the endocrine system. The pituitary gland, which hangs by a thin stalk from the hypothalamus, is called the master gland of the body because it regulates the activity of the endocrine glands.

The hypothalamus detects the rising level of the target organ's hormones then sends either hormonal or electrical messages to the pituitary gland. In response, the pituitary gland releases hormones, which travel through the bloodstream to a target endocrine gland, instructing it to stop producing its hormones.

The hypothalamus—under the control of your thoughts, feelings, and attitude—sends instructions through the autonomic nervous system and the pituitary gland. The autonomic nervous system regulates blood pressure, heart rate, breathing, digestion, and sweating, and serves other vital functions. The pituitary gland releases hormones that cause other endocrine glands, such as the adrenal glands and the thyroid, to secrete their hormones. The hypothalamus, therefore, is the principal intermediary between the nervous and endocrine systems—your body's two major control systems. (3)

### Emotions & Organs Connection

# SLEEP

Ample rest for the body is critical, yet an estimated 68% of the United States population has insomnia. They take more than 20 minutes to fall asleep, they wake up periodically throughout the night, or they wake up and are unable to fall back to sleep. These sleep patterns fit the clinical definition of insomnia, a major source of chronic stress that promotes a chronic stress response and compromises the hormone, immune, digestive, and detoxification systems.

Cortisol, DHEA, progesterone, melatonin, human growth hormone, estrogens, and testosterone all depend on quality sleep, as do neurotransmitters in the brain that can regenerate only with deep sleep. Poor sleep interferes with virtually all body functions and undermines homeostasis.

You can't have optimal health and longevity if you are not sleeping well.

The hormone, immune, digestive, and detoxification systems are hardwired to your internal "clock," or circadian rhythm. The circadian clock in mammals is located in the hypothalamus. In modern society, we have chosen to ignore this basic law of nature, attempting to bend this physiological imperative to our own needs and desires. We pay a hefty price for disturbing the internal clock and sleep cycle.

It's interesting to note that we live in a time where the days are extended with artificial light, which creates a shorter dark cycle. By shortening the dark cycle, we deprive ourselves of sleep. To lengthen this cycle, try sleeping in a room that is completely dark. A dark sleeping environment supports the body's ability to regenerate.

Another reason we are sleeping less, in addition to indoor lighting and multitasking lifestyles, is the universal acceptance and abuse of caffeine.

Caffeine junkies are caught in a vicious cycle of inadequate nightly recovery. The more caffeine you consume, the worse your sleep will be as a result of hormone disturbance, and your tendency to increase caffeine consumption rises, further robbing you of adequate sleep, and so on. If you insist on drinking coffee or other stimulants such as "energy" drinks, caffeinated teas, and sodas, limit your consumption to about 8 ounces and take these substances before noon to minimize their interference with your sleep.

Poor blood sugar control may be a factor in your inability to rest and recover given the highs and lows at play with your nervous system and hormone levels. Exercise can support your ability to get a good night's sleep, or can interfere with it. Both over exercising, such as pushing yourself to run even when you're tired, injured, or experiencing pain, or exercising during times when you should be resting can feed this problem.

Emotion is another lifestyle component that affects the quality of your sleep. If you are easily upset and carry around the negative emotions of the day, your mind will be busy and your body will be on alert. Learn to breathe deeply throughout your day and do not internalize negative experiences. (4)

The ZYTO Hand Cradle has been cleared by the FDA for the measurement of galvanic skin response. ZYTO software has not undergone FDA review for effectiveness. ZYTO technologies are not intended to be used in the diagnosis, cure, treatment, mitigation, or prevention of any disease or medical condition. The diagnosis and treatment of medical conditions should only be undertaken by qualified medical professionals. ZYTO professional software provides general wellness information and should not be used without the involvement of a licensed healthcare professional. ZYTO products have not been the subject of controlled clinical trials to establish their effectiveness and their use is not a generally accepted medical practice by the traditional medical establishment. If you have any questions regarding ZYTO technology or our products please contact us at [info@zyto.com](mailto:info@zyto.com).
